/ ALL ABOUT ME

I am a self-taught user experience researcher with a strong eye for innovative design and a keen understanding of techniques geared toward optimum user experience and satisfaction

/ WORK EXPERIENCE

>> UI/UX Designer

Teeleh Application | 2018 to present

I was in charge of creating the user interface from scratch. I started with gathering user requirements to creating wireframes. Afterward, I developed mockups and interactive prototypes. Finally, my job was to troubleshoot any design problems and optimizing it based on user's feedback

>> ICT network engineer

Dr.Hedayati Institution | 2016 to 2018

My area of expertise was implementing Cisco-based solutions and VMware Virtualization. I generally knew about Backup and Monitoring Solutions

>> ICT security technician

CERT Laboratory of University of Tabriz (APA) | 2015 to 2016
Our mission was to raise awareness of security issues among users. in addition, assisting and identifying vulnerabilities in computer and network systems

/ EDUCATION HISTORY

>> University of Tabriz

BSc Computer Engineering | 2014-2019

Relevant courses: Data Structures, Advanced Programming, Artificial Intelligence, Algorithms, Automata Theory, Computer Architecture, Operating Systems,...

/ COMPETENCIES

>> Programming	>> Design
